

Kelly Phan

Junior front-end developer

Currently a 5th-year student at HETIC, France, I'm a young aspiring front-end developer. Digital enthusiast, I'm curious and I enjoy to make things live. After four years of learning internet basic knowledge like digital design, marketing and engineering, I'd like to specialize myself as a developer.

I'm actively looking for an apprenticeship from January to December 2019 in Paris as a junior front-end developer.

Skills.

Development

- HTML5, CSS3, Javascript (ES6+)
- Modern JS library (React, Vue...)
- GreenSock, P5.js, Gulp, Git...

Other

- Design Thinking and agile method
- Sketch, InVision, Adobe tools
- Slack, Asana, Trello, Gsuite...

Experiences.

Intern as front-end engineer at Fictive Kin, Brooklyn

June 2019 - present

Fictive Kin is an engineering and design studio based in Brooklyn. As a front-end developer intern here, I had the opportunity to work on various scale projects, as a full-team member.

Front-end developer for hkind, Paris

Nov 2018 - May 2019

hkind is a French start-up who helps health actors to discover amazing projects and initiatives according to their sectors, and localisation. As the lead developer, I was in charge of creating a clean PWA by May 2019.

Creative developer intern at SuperheroCheesecake, Amsterdam

Jul 2018 - Oct 2018

SuperheroCheesecake is a digital production studio from the Netherlands. The studio craft premium digital work for web, mobile and experiential with creative agencies and global brands.

Education.

HETIC college, Paris

Sep 2015 - until Dec 2020

Master degree : Expert in digital communication engineering.

Montaigne high school, Paris

Sep 2013 - Jun 2015

A 2-year intensive foundation degree for business school.
