Kelly Phan

Junior frontend developer

Currently a 4th year student at HETIC, France, I'm a young aspiring frontend developer. Digital enthusiast, I'm curious and I enjoy to make things live. After three years learning internet basic knowledge, I'd like to specialize myself as a JavaScript Developer.

I'm actively looking for a 6-months internship from June to December 2019 in NYC.

Skills.

Development

- HTML5, CSS3, JavaScript (ES6+)
- React.js, Redux, Vue.js, Gatsby.js
- GreenSock, P5.js, Gulp, Git…

Other

- Design Thiking and agile method
- Sketch, inVision, Adobe tools
- Slack, Asana, Trello, Gsuite…

Experiences.

Creative Developer Intern at SuperheroCheesecake, Amsterdam
Jul 2018 – Oct 2018

SuperheroCheesecake is an award-winning digital production studio based in Amsterdam. The studio craft premium digital work for web, mobile and experiential with creative agencies and global brands.

Frontend Developer for hkind, Paris
Nov 2018 – present

hkind is a French start-up which helps health actors to discover amazing projects and initiatives according to their sectors, and localisation. As a frontend developer, I'm in charge of creating a clean PWA by May 2019.

Intern as web designer at Zenchef, Paris
Jul 2017 – Sep 2017

Zenchef is a French company which gives back to restaurant owners the power to control their online communication and bookings. I was in charge of the marketing design for printable communication and on their blog's UI.

Education.

HETIC college, Paris
Sep 2015 – until Dec 2020

Master degree : Expert in digital communication engineering.

Montaigne high school, Paris
Sep 2013 – Jun 2015

A 2-year intensive foundation degree for business school.
